Inclusive and Diverse K-12 AI Literacy – Stakeholder Workshop
As part of the AAAI-23 Diversity and Inclusion Activities
@ Thirty-Seventh AAAI Conference on Artificial Intelligence
February 13, 2023
Walter E. Washington Convention Center
Washington DC, USA

Chairs: Amy Eguchi, University of California San Diego & Christina Gardner-McCune, University of Florida

Goal: This workshop aims to bring together various stakeholders to present their K-12 AI Education projects, achievements, activities, or lessons learned from the US and around the world. This will be an opportunity to network, brainstorm, and promote more systemic collaborations for expanding inclusive AI literacy education for all students to diversify the field.

Audience: Stakeholders interested in promoting inclusive AI literacy education including students, teachers, State Department of Education representatives, county office representatives, higher education faculty, industry partners, and anyone interested in AI literacy education.

Call: We are inviting proposals on AI literacy for K-12 classrooms including achievements by AI literacy initiatives by schools, school districts, state or country, AI literacy activities, lessons, projects by teachers, students, schools, school districts, state or country, industry partners, and more. The workshop is a place to learn from each other. We are encouraging you to showcase your AI literacy work!
